ROYAL LABS | PRIVATE LABEL & CONTRACT MANUFACTURING

POLISH AWAY THE ORDINARY. REVEAL A SOFTER, FRESHER-LOOKING COMPLEXION.

EXFOLIATING SCRUB & MASK

A dual-action facial treatment with sunflower wax beads, exfoliating acids and comforting botanical extracts.

TWO WAYS TO REFINE. ONE LUXURIOUS RITUAL.

Elevate the everyday exfoliation ritual with a creamy scrub-and-mask experience. Sunflower wax beads provide a gentle-feeling polishing texture, while glycolic, lactic and salicylic acids bring a sophisticated exfoliating ingredient story. A nourishing blend of sunflower, jojoba and grapeseed oils leaves skin feeling soft and conditioned.

NOT JUST ANOTHER FACE SCRUB.

Designed to be used as a polishing scrub or a leave-on-for-a-short-time rinse-off mask, this versatile treatment pairs exfoliating ingredients with organic lavender and chamomile extracts, glycerin and allantoin. The result is a premium spa-inspired concept for brands seeking more than a basic scrub. Directions and contact time must be established through finished-product testing.

THE FORMULA STORY

SUNFLOWER WAX BEADS	Plant-derived polishing beads provide the physical exfoliation experience.
GLYCOLIC + LACTIC ACIDS	Alpha hydroxy acids selected for their exfoliating skin-care positioning.
SALICYLIC ACID	A beta hydroxy acid often used in skin-smoothing exfoliating formulas.
ORGANIC LAVENDER + CHAMOMILE EXTRACTS	Botanical extracts that complement a comforting, spa-inspired ritual.
SUNFLOWER + JOJOBA + GRAPESEED OILS	Conditioning oils help leave skin feeling soft and nourished.
GLYCERIN + ALLANTOIN	Moisture-attracting and skin-conditioning ingredients for a comfortable finish.

CLEAN BEAUTY. WITHOUT THE COMPROMISE.

Formulated with plant-derived sunflower wax beads rather than plastic exfoliating microbeads. Any additional free-from, organic-content or cruelty-free claims require verification against the finished formula and supplier documentation.

YOUR BRAND. OUR INNOVATION.

Bring a distinctive exfoliating scrub-and-mask treatment to your collection with Royal Labs private-label and contract manufacturing. Ask about custom fragrance, packaging options, product information and pricing.
