## FIRMING PEPTIDE CREAM

Three advanced peptides. Triple ceramide support. A prestige-worthy daily moisturizer.

### MEET THE NEXT GENERATION OF FIRMING CARE

A daily moisturizer can deliver more than softness. Royal Labs combines a sophisticated three-peptide complex with ceramides, nourishing botanical oils and an advanced Vitamin C derivative—creating a compelling premium skincare story for brands focused on smoother, firmer-looking skin.

### NOT JUST ANOTHER FIRMING CREAM.

Copper Tripeptide-1, Acetyl Hexapeptide-8 and Hexapeptide-11 anchor an elevated age-defying formula. Ceramides NP, AP and EOP join cholesterol, phytosphingosine and squalane to support the skin's moisture barrier, while jojoba, apricot and shea butter leave skin feeling conditioned and supple.
