ROYAL LABS | PRIVATE LABEL & CONTRACT MANUFACTURING

GENTLE PROTECTION FOR DELICATE SKIN.
THE COMFORT PARENTS LOOK FOR.

OTC ZINC OXIDE DIAPER CREAM

FDA OTC skin protectant | Zinc Oxide 25% active ingredient | Water-free botanical cream

OTC SKIN PROTECTION. BOTANICAL-RICH CARE.

Developed as an over-the-counter (OTC) diaper rash skin protectant, this water-free cream features 25% zinc oxide as its active ingredient. Sunflower oil, organic coconut oil and shea butter create a rich, smooth base for delicate diaper-area skin.

NOT JUST ANOTHER OTC DIAPER CREAM.

A high-zinc OTC skin protectant paired with a botanical-rich base. Candelilla wax provides structure, while nourishing oils and butters deliver a comfortable application experience. An attractive private-label option for brands entering the OTC baby-care category.

THE FORMULA STORY

ZINC OXIDE — 25% OTC ACTIVE	FDA OTC diaper rash skin protectant active ingredient; helps protect chafed skin and seal out wetness when properly labeled.
SUNFLOWER OIL	Primary emollient, supporting spreadability and softness.
CANDELILLA WAX	Adds structure and creates a rich, protective-feeling texture.
ORGANIC COCONUT OIL + SHEA BUTTER	Botanical emollients that support softness and a comfortable skin feel.
ORGANIC COCOA BUTTER + LECITHIN	Rounds out the botanical conditioning story with rich, moisture-locking hydration.

CLEAN BEAUTY. WITHOUT THE COMPROMISE.

Water-Free | No Added Fragrance Listed | Formulated without parabens, mineral oil, petrolatum or silicones.

YOUR BRAND. OUR INNOVATION.

Bring an OTC zinc oxide diaper rash cream to your brand. Ask Royal Labs about private-label manufacturing, packaging, pricing and OTC labeling and regulatory requirements.
